

Meaningful Use Requires
Meaningful Assistance™

Maximizing IT Outcomes

They have been the backbone for the success of our Lawson systems. They were a key player in our very successful Financial, Human Resources and Payroll implementation. They delivered expert project management and seasoned functional, development and technical resources. We continue to rely on them for our ongoing project needs. I am always confident of the work they perform and their ability to deliver.”

maxIT Lawson Practice Overview

maxIT and Ingenuity Solutions Group join forces to launch enhanced Lawson practice

Lawson Practice Summary

The Lawson Edge: maxIT Healthcare and Ingenuity Solutions Group Join Forces

maxIT Healthcare has the experience and expertise required to provide consulting, project management and development services for your organization's Lawson software system. With the acquisition of Ingenuity Solutions Group, a recognized consulting services leader in the Lawson community, maxIT now has dedicated resources and a focused approach to providing Lawson Enterprise Resource Planning (ERP) solutions to healthcare providers. maxIT's Lawson Practice is dedicated to maximizing IT outcomes and achieving business goals by optimizing Lawson's financial, human capital management and materials management systems.

Lawson Expertise

Our Lawson consulting team has been assisting clients with Lawson systems for over 14 years, and provides a unique cross-section of industry knowledge, expertise and Lawson certifications. Our team averages over 11 years of Lawson experience, and brings a library of industry proven processes, project materials, methodologies and best practices to each engagement. We are focused on the success of your organization, and deliver results that save you time and money.
