maxIT MEDITECH Practice

maxIT Services

maxIT helps healthcare organizations maximize the potential of their information systems to achieve clinical, operational, financial, and IT objectives. Our clients achieve their business goals, and improve patient safety and quality of care through our tailored service solutions that are implemented rapidly, and with positive outcomes. With a full breadth of service offerings, maxIT provides experience and expertise in the following strategic areas:

- HIS/EMR Systems
- Clinical Imaging Services
- Payer Systems
- ERP Services
- Management Consulting Services

In each of these areas, our hands-on working knowledge of healthcare operations and workflows, along with our recognized expertise in all major healthcare software applications, put maxIT in a unique position to provide cost-effective solutions for nearly any IT strategy, deployment or staffing need:

- Application Training and Optimization
- Interim Senior Management
- Assessments / Roadmaps
- On-going Application Support
- Process Redesign
- Project Management
- System Implementations and Upgrades
- Business Intelligence and Reporting
- Clinical Transformation, Adoption and CPOE
- Project Planning and Strategic Advice
- Revenue Cycle Management
- System Conversions, Interfaces and Integrations

Meaningful Use Requires Meaningful Assistance™

maxIT is much more than a typical IT consulting firm. We have a deep, practical understanding of the processes and pitfalls related to Meaningful Use, and have provided “Meaningful Assistance” to more than 450 clients nationwide. Our consultants average 19 years of experience in both clinical and IT areas, and have in-depth knowledge of healthcare operations and clinical workflows. Meaningful Assistance from maxIT is senior consultants who deliver immediate value, a clear roadmap to client success, an ability to scale to meet project needs, and results at reasonable rates
