## maxIT Services

maxIT helps healthcare organizations maximize the potential of their information systems to achieve clinical, operational, financial, and IT objectives. With a full breadth of service offerings, maxIT provides experience and expertise in the following strategic areas:

- HIS/EMR Systems
- Clinical Imaging Services
- Payer Systems
- ERP Services
- Management Consulting Services

In each of these areas, our hands-on working knowledge of healthcare operations and workflows, along with our recognized expertise in all major healthcare software applications, put maxIT in a unique position to fulfill nearly any IT strategy, deployment or staffing need. Our engagements typically include the functional and technical areas of:

- System Implementations and Upgrades
- Application Training and Optimization
- Meaningful Use Assessments/Roadmaps
- Process Redesign
- System Conversions, Interfaces and Integrations
- Project Planning and Strategic Advice
- On-going Application Support
- Interim Senior Management
- Project Management
- Business Intelligence and Reporting
- Revenue Cycle Management
- Assessments and Remediation Plans
- Clinical Transformation, Adoption and CPOE

## Meaningful Use Requires Meaningful Assistance™

maxIT is much more than a typical IT consulting firm. We have a deep, practical understanding of the processes and pitfalls related to Meaningful Use, and have provided “Meaningful Assistance” to more than 450 clients nationwide. Our consultants average 19 years of experience in both clinical and IT areas, and have in-depth knowledge of healthcare operations and clinical workflows. Meaningful Assistance from maxIT is senior consultants who deliver immediate value, a clear roadmap to client success, an ability to scale to meet project needs, and results at reasonable rates.
