

Meaningful Use Requires  
Meaningful Assistance™

Maximizing IT Outcomes

# eClinicalWorks Practice

## eClinicalWorks Practice Skill Sets

maxIT Healthcare's eClinicalWorks Practice is comprised of dedicated and experienced IT consultants focused on successful implementations, upgrades, and optimization of advanced eClinicalWorks systems. Our consultants support multiple eClinicalWorks software platforms, including:

- Practice Management
- Electronic Health Record
- Patient Portal

## maxIT Clients

maxIT is proud to have a client list that includes numerous prominent healthcare institutions with varying backgrounds, including academic medical centers, children's hospitals, and large IDNs. In fact, over 450 leading organizations have entrusted maxIT Healthcare to aid in the system selection, planning, project management, implementation and support of their IT initiatives. Our clients achieve their business goals, and improve patient safety and quality of care through our tailored service solutions that are implemented rapidly, and with positive outcomes. maxIT professionals have played key leadership roles at organizations with complex workflow, adoption and integration requirements. maxIT Healthcare clients include many leading providers, such as:

- Adventist Health System
- Advocate Condell Medical Center
- Baylor College of Medicine
- Catholic Health Initiatives
- Cedars-Sinai Medical Center
- Children's Hospital of Philadelphia (CHOP)
- Cleveland Clinic
- Inova Health System
- IU Health (formerly Clarian)
- Lakeland Regional Medical Center
- Legacy Health
- Stanford University Medical Center
- Summa Health System
- University of Michigan Health System
- Virtua Health
- WellStar Health System

## maxIT Services

maxIT helps healthcare organizations maximize the potential of their information systems to achieve clinical, operational, financial, and IT objectives. With a full breadth of service offerings, maxIT provides experience and expertise in the following strategic areas:

- HIS/EMR Systems
- Clinical Imaging Services
- Payer Systems
- ERP Services
- Management Consulting Services

In each of these areas, our hands-on working knowledge of healthcare operations and workflows, along with our recognized expertise in all major healthcare software applications, put maxIT in a unique position to fulfill nearly any IT strategy, deployment or staffing need. Our engagements typically include the functional and technical areas of:

- System Implementations and Upgrades
- Application Training and Optimization
- Meaningful Use Assessments/Roadmaps
- Process Redesign
- System Conversions, Interfaces and Integrations
- Project Planning and Strategic Advice
- On-going Application Support
- Interim Senior Management
- Project Management
- Business Intelligence and Reporting
- Revenue Cycle Management
- Assessments and Remediation Plans
- Clinical Transformation, Adoption and CPOE

## Meaningful Use Requires Meaningful Assistance™

maxIT is much more than a typical IT consulting firm. We have a deep, practical understanding of the processes and pitfalls related to Meaningful Use, and have provided “Meaningful Assistance” to more than 450 clients nationwide. Our consultants average 19 years of experience in both clinical and IT areas, and have in-depth knowledge of healthcare operations and clinical workflows. Meaningful Assistance from maxIT is senior consultants who deliver immediate value, a clear roadmap to client success, an ability to scale to meet project needs, and results at reasonable rates.
