

## **maxIT Healthcare Selected as One of the Best Places to Work in Healthcare**

Westfield, IN — September 2010 — maxIT Healthcare, a leading professional consulting services company for healthcare providers, has been recognized by *Modern Healthcare* magazine in its third annual list of the Best Places to Work in Healthcare. Modern Healthcare's Best Places to Work program recognizes outstanding employers in the healthcare industry on a national level. maxIT provides critical information technology (IT) support that helps healthcare organizations improve their clinical, financial, operational and IT outcomes. With over 430 senior consultants, maxIT offers implementation, project management, and management consulting expertise in healthcare information systems (HIS), electronic medical record (EMR) systems, enterprise resource planning (ERP) systems, payer systems, and clinical imaging and informatics systems.

The Best Places to Work program collects information from both the employer and employees, and is open to all healthcare companies (providers, suppliers, payers) with at least 25 employees. Employers complete a survey detailing company policies, practices, benefits and demographics. Employees are selected at random and asked an in-depth set of questions that result in an analysis in 8 core areas: Leadership and planning, Culture and communications, Role satisfaction, Working environment, Relationship with supervisor, Training and development, Pay and benefits, and Overall satisfaction.

"We are thrilled to be named as one of the Best Places to Work in Healthcare," said Parker Hinshaw, CEO and Founder of maxIT. "I've always said that maxIT is a company where healthcare clients find the best IT consultants, and that it also happens to be the place where the best IT consultants like to work. It's very gratifying to know that our outstanding consultants also believe maxIT is one of the best places to work."

"One of the cornerstones of maxIT has been to provide a positive and supportive environment where our consultants are empowered to reach their professional potential, are able to achieve a good work-life balance, and are financially rewarded for their contributions," said Jennifer Arthur, CAO and Co-Founder of maxIT. "It's exciting to know that our consultants enjoy working for maxIT, and we'll continue to build on this to make maxIT a destination employer for the industry's top IT consultants," added Rob Moore, COO and Co-Founder of maxIT.

The Best Places to Work list is comprised primarily of leading hospitals and healthcare provider systems. maxIT is one of the few professional service companies on the list. The ranked order of the 100 Best Places to Work in Healthcare will be revealed at an awards ceremony on October 18, 2010.
