

Meaningful Use Requires
Meaningful Assistance™

Maximizing IT Outcomes

Clinical Imaging & Informatics

Meaningful Use Requires Meaningful Assistance™

maxIT Healthcare is much more than a typical consulting firm. We have a deep, practical understanding of the processes and pitfalls related to Meaningful Use, and have provided “Meaningful Assistance” to more than 400 clients nationwide. Our consultants average 19 years of experience in both clinical and IT areas, and have in-depth knowledge of healthcare operations and clinical workflows. Meaningful Assistance from maxIT is senior consultants who deliver immediate value, a clear roadmap to client success, an ability to scale to meet project needs, and results at reasonable rates.

maxIT Clinical Imaging Expertise

Leading healthcare organizations have entrusted maxIT and its consulting staff to maximize the potential of their information systems in order to achieve clinical, operational, financial, and IT objectives. maxIT Healthcare’s Clinical Imaging Services Practice has a dedicated and experienced team focused on Clinical Imaging and Informatics Services and departments. Our well-tenured and highly skilled consultants average over 18 years experience in the radiology and cardiology markets. We leverage a ‘best practices’ approach to every project, and our extensive clinical experience is tailored to meet each client’s specific needs. Our team has a broad set of technical and clinical skills available to assist with initial overall services line technology and workflow assessments, implementation, project management, upgrades, and optimization of your current systems.

maxIT Vendor Experience

maxIT is currently engaged in Clinical Imaging projects (e.g. Radiology and Cardiology) at several major medical centers throughout the nation. Our team has an accumulated experience with key vendors such as:

- GE Healthcare
- Philips
- Cerner
- Merge (Amicas)
- Lumedx
- McKesson
- Siemens
- Fuji
- Agfa

Clinical Imaging & Informatics

maxIT Clinical Imaging Services

Clinical Imaging and Informatics is not only our specialty, it is our team's only focus. Providing cost-effective solutions for most key positions, our engagements are in the functional, operational and technical areas of:

- Project planning and strategic advice
- System implementations and upgrades feasibility review
- Project management
- Interim system administrator and operations support
- Application training and optimization
- System conversions, interfaces and integrations
- On-going application support
- Process redesign
- Operational optimization
- Physician and end-user adoption

Meaningful Assistance from maxIT

maxIT Healthcare is one of the leading and fastest growing providers of healthcare IT professional services. In fact, more than 400 healthcare organizations including academic medical centers, multi-hospital systems, and physician practices have trusted maxIT Healthcare professionals to deliver improved outcomes driven by information technology. maxIT invests heavily in collaboration tools, methodology, and the capture of knowledge to ensure that the best ideas across the firm are brought to each engagement. In addition, we provide tailored solutions that are implemented rapidly and with positive outcomes, to assist providers in achieving their business goals, and improving patient safety and quality of care. This proven experience, a relentless focus on client success, and the in-depth knowledge of over 350 consultants, positions maxIT as the perfect partner for IT strategy, deployment and staffing needs related to Clinical Imaging services.
