

Epic Practice Summary

Maximizing IT Outcomes

Senior IT Consultants | Value Added Partner | Focused Only on Healthcare

Overview

maxIT Healthcare is an independent, privately held consulting firm that has established itself as one of the leading providers of professional staffing solutions to the healthcare industry. maxIT provides critical IT support for clinical and financial applications to maximize the efficiency of information technology. Through its 300+ consultants, maxIT assists providers in the planning, implementation and support of their IT initiatives.

Meaningful Use initiatives will be invasive, and require positive IT outcomes and measurable results. That's why large and small healthcare organizations working towards Meaningful Use turn to maxIT for Meaningful Assistance. With seasoned IT consultants who have deep functional experience, maxIT can support and extend your organization to meet the challenges of Meaningful Use.

Success

The success of maxIT has been achieved by leveraging its many years of combined experience in the industry. Success is attributed to our ability to carefully listen to our clients, and to our skill in identifying and providing top-quality, hands-on experienced consultants. Our ability to identify and attract quality consultants sets us apart from the competition.

At maxIT, we recruit professionals with an average of 19 years of Healthcare experience in their area of expertise. We invest in our resources through active and ongoing training efforts, providing our staff with a rewarding and challenging work environment.
