

# Meditech Executive Summary

Maximizing IT Outcomes

Senior IT Consultants | Value Added Partner | Focused Only on Healthcare

## Overview

maxIT Healthcare is an independent, privately held consulting firm that has established itself as one of the leading providers of professional staffing solutions to the healthcare industry. maxIT provides critical IT support for clinical and financial applications to maximize the efficiency of information technology. Through its 290+ consultants, maxIT provided over 625,000 hours of system implementation and support activities in 2008.

On August 1, 2008, maxIT announced the acquisition of e-Hospital Consulting, LP, a privately held consulting firm that focused only in the Meditech application arena (see press announcement). The focused Meditech expertise of E-Hospital Consulting combined with the depth of resources and wide range of experience of maxIT Healthcare allows us to offer over 325 consultants to serve the growing needs of our clients.

## Experienced Meditech Consultants That Produce Results!

Together, we offer a wide range of Meditech consulting services including product implementation, project management, and training. Our consultants have actual health care experience combined with an excellent knowledge of all Meditech applications. Each consultant has experience in assisting single and multiple hospital organizations effectively improving the functionality of their Meditech applications. Our mission is to ensure that your IT investments enhance your day-to-day operations and enable your company to meet or exceed its business goals.

## Our Difference

- Senior IT consultants with an average of 19 years both clinical and Meditech experience.
- Known for our ability to work well with vendors, other consultants and clients alike with a focused agenda "the success of the project".
- Our ability to identify and attract quality consultants sets us apart from the competition.
- Reduced ramp up time-our highly experienced consultants "hit the ground running".
