

Surgical Services Fact Sheet

Maximizing IT Outcomes

Senior IT Consultants | Value Added Partner | Focused On Surgical

Overview

maxIT Healthcare is an independent, privately held consulting firm that has established itself as one of the leading providers of professional staffing solutions to the healthcare industry. maxIT provides critical IT support for clinical and financial applications to maximize the efficiency of information technology. Through its 290+ consultants, maxIT provided over 625,000 hours of system implementation and support activities in 2008.

maxIT offers cost-effective services to its clients, enabling more effective project management and faster implementations. Our charter is to assist organizations by complementing their front-line personnel with added resources and management where necessary to allow teams to work more effectively and efficiently.

Leading organizations have entrusted maxIT and its consulting staff to aid in the planning, implementation and support of their IT initiatives.

maxIT Surgical Services Practice Area

maxIT Healthcare Surgical Service Solution has a dedicated and experienced practice team focused on Surgical Services Department. This team has a broad set of technical and clinical skills available to assist with implementation, upgrades, and optimization of your current systems. We are currently engaged in projects at several major medical centers throughout the nation, and have experience with key vendors such as Cerner, McKesson, Epic, Eclipsys, and Meditech.

Supported Surgical Applications:

Cerner	HNA Millennium® SurgiNet® Scheduling Management
McKesson	Horizon Surgical Manager (including scheduling)
GE Healthcare	Centricity Perioperative (including scheduling)
Epic	OpTime (Surgical Application) Cadence (Scheduling Application)
Eclipsys	Sunrise Surgery™ powered by SIS
MEDITECH	Operating Room Management (including scheduling)

maxIT Surgical Services:

Surgical is our only focus. Providing cost-effective staffing solutions for most key positions, our engagements are in the functional and technical areas of:

- Systems implementations and upgrades
- Application training
- Application optimization
- Systems conversions, interfaces and integration
- On-going application support and operations
- Process redesign
- Project management
- Project planning and strategic advice
- Interim / transitional senior management
- Operational optimization
- Physician adoption
- Market expansion and revenue growth

maxIT Success:

The success of maxIT has been achieved by leveraging its many years of combined experience in the industry. Success is attributed to our ability to carefully listen to our clients, and to our skill in identifying and providing top-quality, hands-on experienced consultants. Our ability to identify and attract quality consultants sets us apart from the competition.

At maxIT, we recruit professionals with an average of 19 years of Healthcare experience in their area of expertise. We invest in our resources through active and ongoing training efforts, providing our staff with a rewarding and challenging work environment.
